Profile

Highly skilled full-stack developer with a proven track record in designing and implementing innovative web applications. Passionate about staying up-to-date with the latest technologies and techniques in the industry. Seeking a challenging position where my expertise in front-end and back-end development can contribute to the success of the company.

Work Experience

Full-stack developer

- Developed and maintained responsive web applications using full-stack technologies including HTML, CSS, JavaScript, and PHP, resulting in improved user experience and increased customer satisfaction.
- Collaborated with cross-functional teams to design and implement scalable and robust databases, utilizing SQL queries and database management systems, resulting in efficient data storage and retrieval.
- Implemented modern front-end frameworks such as React and Angular to create intuitive user interfaces, resulting in enhanced user engagement and seamless navigation.
- Led the development of RESTful APIs and integrated third-party services to streamline communication between client-side and server-side applications, resulting in improved functionality and performance.
